**INVESTMENT STRATEGY:** This is not a mutual fund. The Option seeks to provide a low risk, stable investment offering competitive yields. This Option may also invest in cash and cash equivalents from time to time, for liquidity purposes. The rate you receive is a blend of the rates of the Option’s investments. While the Option’s primary objective is to maintain a stable value, the Option is not guaranteed by the FDIC or the federal government. This Option may serve to balance other higher risk/return investments. The Option may be appropriate for investors who are seeking to accumulate current income while preserving the value of their original investment.

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be less or higher than the figures shown. Investment return and principal value will fluctuate so that upon redemption, shares may be worth more or less than their original cost. Performance data does not reflect deduction of redemption fee, which, if such fee exists, would lower performance. For current to the most recent month-end performance information, please visit www.jhfps.com.
